

- Sproughton CofE Primary School is consistently full and well sought after. Unusually, we have some school places available from September in years 1, 3, 5 & 6.
- The school have won a significant number of Condition Improvement Funding bids over the last 5 years inc. new windows, doors (glazing), perimeter fencing, fire alarm, panic alarm, heating, air conditioning and drainage- front and back.
- Parents raised funds to resurface the playground and the pupils chose the new line markings which have been laid this academic year.
- Following the Parish Council publishing concerns around litter in the village, the School Council are planning a community litter pick this term.
- Pupils have reported how much they love and enjoy the new village playground behind the school. Class visits to the playground are planned this term.
- Local building projects mean that the school could be approached by the Local Authority re. expansion but this has been suggested for the last six years and there are no further developments.

Kind regards,

Mrs Jane Stalham
Headteacher
